

Integrated Quality, Environment and Health & Safety Management System Policy

Assumptions for successful, efficient & friendly operation underlie Nowy Styl's business. They are set in our mission statement, which reads:

With a passion and respect for the natural environment, we help people arrange their offices and other public buildings, so that they best respond to the needs of their users' health and comfort, boost their efficiency, make their work more enjoyable and satisfy their individual ergonomic and aesthetic needs. So, basically, so that they just serve them best.

In order to fulfil the company's mission, achieve a competitive market position and strengthen our customers' trust, thus ensuring business continuity, we focus on achieving objectives based on the following assumptions:

We provide our customers with comprehensive service and we meet their ever-growing expectations.

We systematically improve the characteristics of our products in terms of performance, ergonomics and strength.

We ensure continuous development of our business by expanding into international markets. We strengthen our global and local responsibility.

We eliminate potential risks by identifying, analyzing and evaluating threats and opportunities in processes and workplaces.

We provide safe and hygienic working conditions to prevent injuries and illness.

We protect the health and safety of those staying in our locations, and of our customers and subcontractors.

We engage our employees and stakeholders in building a culture of safety.

We identify and monitor environmental aspects, thereby minimizing adverse environmental impacts.

We care for the rational consumption of natural resources, using technologies that reduce production waste.

We design our products in line with the circular economy model.

We train employees to raise the awareness of their environmental impact, quality and safety.

We comply with applicable laws and fulfil our other obligations.

We promise to be fully committed to the operation of an Integrated Management System based on the requirements of ISO 9001, ISO 14001, ISO 45001, EN 1090-1, EN 1090-2 and ISO 3834-2 by providing the necessary resources for its maintenance and continuous improvement.

Krosno, 2 March 2020

President & CEO

Adam Krzanowski
